Daily use

How can I see how many SDSs I have in each location?

The number in brackets after a location name is the number of Safety Data Sheets (SDSs) on that location. You see it:

- in the left menu, in the list of locations under **Manage SDS Library**;
- on the **Sites & Locations** page (**Locations** in the left menu).

The number counts the SDSs on that location only, not those on its sub-locations. The number on the **Manage SDS Library** menu item is the total for your library.

Unique solution ID: #1041
