Hvordan kan jeg flytte eller kopiere sikkerhedsdatablader fra en lokation til en anden?

Fra [Lokationsstyring \(kræver login\)](#) og fra [Alle mine sikkerhedsdatablader-siden \(kræver login\)](#) kan du flytte et sikkerhedsdatablad fra en lokation eller site til en anden ved at bruge "Flyt sikkerhedsdatablad" i mere-menuen.

The screenshot shows the 'All my SDSs' page. The table lists SDS entries with columns: Product Name, Supplier Name, Location, Signal word, Pictograms & Controls, Substance hazard, and Actions. The first entry is '1,2-Dimethoxyethane' from 'Merck Life Science UK Limited' at 'Test 31'. The 'Actions' column for this entry has a red box around the 'More' menu icon. A dropdown menu is open, showing options like 'Move SDS', 'Log presence of product', 'Create risk evaluation', etc. The 'Move SDS' option is highlighted with a red box.

Fra [Alle vores sikkerhedsdatablader-siden \(kræver login\)](#) på "Sikkerhedsdatablad-overensstemmelse"-fanen, kan du multiselecte sikkerhedsdatablader og masseflytte eller massekopiere flere sikkerhedsdatablader i én operation.

The screenshot shows the 'All Our SDS' page. The table lists SDS entries with columns: Product Name, Supplier Name, Product Code, Revision date, GHS, Substance hazard, Last evaluated, Locations, and Actions. The first entry is 'Acid Starch Indicator Powder' from 'Taylor Technologies, Inc.' at 'R-0725; R-0725-PL'. The 'Actions' column for this entry has a red box around the 'Bulk Action' button. A dropdown menu is open, showing options like 'Move SDS to another location', 'Copy SDS to another location', 'Move to archive', etc. The 'Move SDS to another location' option is highlighted with a red box.
