Why choose SDS Manager

Connecting with Cursor Desktop

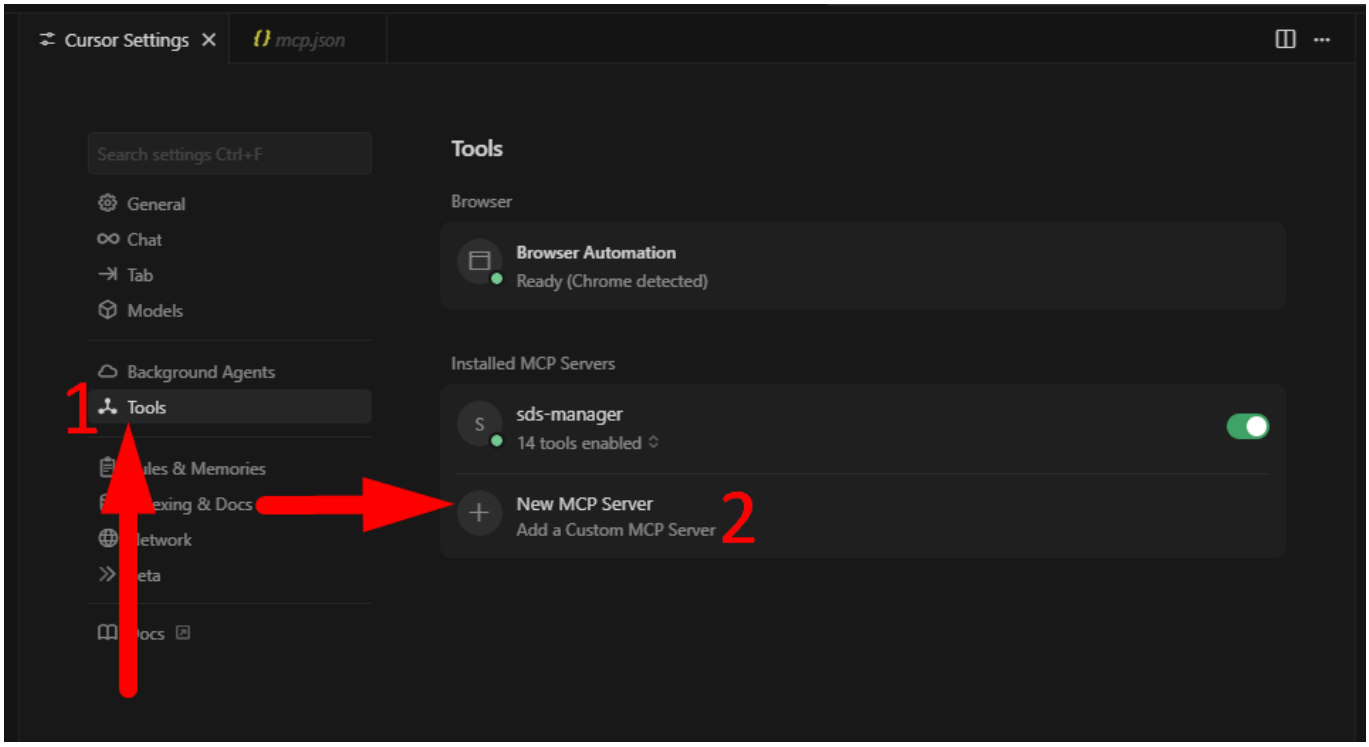

In this topic, SDS Manager only mentions CURSOR AI Model as an example.

A. How to set up via CURSOR (Windows version recommended)

1. Log in to the CURSOR app on Windows.
2. Go to **Settings > Tools > Add new MCP Server**.
3. Add the following text as a new MCP Server:

```
{
  "mcpServers": {
    "sds-manager": {
      "url": "https://sds-mcp.sdsmanager.com/support/mcp",
      "transport": "https"
    }
  }
}
```

4. Go back to **Settings > Tools** and activate the **SDS Manager MCP tool**.
5. Open any AI chat model and try to use it with the token you receive from Step B below.

B. How to set up from the SDS Manager application

1. Log in to the SDS Manager page: https://inventory.sdsmanager.com/
2. Go to **User Management**:: https://inventory.sdsmanager.com/administration/user-management/
3. Open the 3-dots menu for any user you want to activate this feature for.
4. After activation, go to **Manage Account > Chat AI Agent**: https://inventory.sdsmanager.com/account/ and copy the token
5. Use this token in the AI chat model from Step A above.
