

Why choose SDS Manager

See SDS Manager in daily use - from employee perspective

Access the SDS library

With SDS Manager, you can get easy access to your SDS library and all safety information by simply scanning a QR code poster.

Many of our customers also use tablets where SDS Manager is installed. We can help installing Kiosk software on the tables to only allow the tablet to be used for access to Safety Data Sheets, and automatically open your SDS library when powered on.

SDS Manager is specialized to be used on mobile phones

Since we extract all information from the PDF files in a structured format, information is available in a readable format that also works well on mobile phones.

Why choose SDS Manager

The image to the left is the SDS list which read-only users will see and to the right is a detailed view of one SDS.

When no SDS is found in your library using the search keywords, SDS Manager will automatically search its global database of over 14 million safety data sheets. This serves as a valuable fallback, allowing your employees to likely find SDS for products that haven't yet been added to your library. This feature not only helps ensure continuous access to critical safety data but also significantly improves your chances of passing regulatory inspections by ensuring all required SDS are available.

Why choose SDS Manager

SDS Library for Test Corporation Inc. ...

wd-40 fast X  

YOUR COMPANY — LOGO INC.

wd-40 fast did not match any SDS in SDS library for Test Corporation Inc.

Search results found in Global database, covering 13Million+ SDSs

Exact match search results:

	Name	Product code	Supplier	Revision date	Regulation area	Language	Actions
	WD-40 Specialist Fast		WD-40 Company	2021-10-22		English	      
	WD-40 SPECIALIST Fast Release		Hashahal, Inc	2021-04-21		English	      
	Specialist Fast Acting Degreaser		Hashahal, Inc	2021-04-16		English	      

Request Safety Data Sheet to be added to company library

Any employee can request that a missing SDS be added to your library. When an SDS request is made, the SDS library administrator will receive an email notification, ensuring the request is promptly addressed.

Access to Hazard information

On the Hazard tab, only H and P codes are showing in the SDS list. Click on the SDS in the list to see a panel with details of the codes.

Hazard statements:

Code	Statements
H227	Combustible liquid
H302	Harmful if swallowed 
H315	Causes skin irritation
H319	Causes serious eye irritation
H371	May cause damage to organs (or state all organs affected, if known)(state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard)

Precautionary statements:

Code	Statements
P202	Do not handle until all safety precautions have been read and understood.
P233	Keep container tightly closed.

First Aid measures, Firefighting measures and Accidental release measures. SDS Manager also extracts PPE icons from the SDS and shows them to users.

In the SDS list, there are convenient quick buttons to

Why choose SDS Manager

The screenshot shows the SDS Manager interface for 1,2-Dichlorobenzene. The header includes the chemical name "1,2-Dichlorobenzene", the supplier "AccuStandard, Inc", and the quantity "Hazardous Area 100 (kg)". Below this, the word "Warning" is displayed. A red box highlights a set of hazard pictograms: a red diamond with a white exclamation mark, a red diamond with a white skull and crossbones, a blue circle with a white person, a blue circle with a white exclamation mark, a red circle with a white slash, a blue circle with a white flame, a green square with a white plus sign, and a red square with a white flame. To the right of the pictograms, the hazard ratings "H4", "S1", and "E1" are shown in colored boxes. At the bottom, a red box highlights a set of icons: a green square with a white plus sign, a red square with a white flame, and a green square with a white flame.

All SDSs are given an rudimentary ratings for Health hazard, Safety hazard and Environmental hazard based on a scale from 1 to 5. The rating is done based on H and P codes found in the SDS file. These ratings will give some idea about the hazard levels associated with a product.

The screenshot shows the SDS Manager interface for 1,2-Dichlorobenzene. The header includes the chemical name "1,2-Dichlorobenzene", the supplier "AccuStandard, Inc", and the quantity "Hazardous Area 100 (kg)". Below this, the word "Warning" is displayed. Access to detailed information from the Safety Data Sheets

For users that need access to more detailed information from the Safety Data Sheets, they can configure what data from the SDS to be shown.

Below is an example where a user has configured the system to show the Boiling point on all products.

Why choose SDS Manager

Why choose SDS Manager

Users have access to the original Safety Data Sheet file by clicking on the "PDF" icon. As shown below, the PDF version is much less readable on a mobile phone than the extracted view of the data that SDS Manager present to the users.

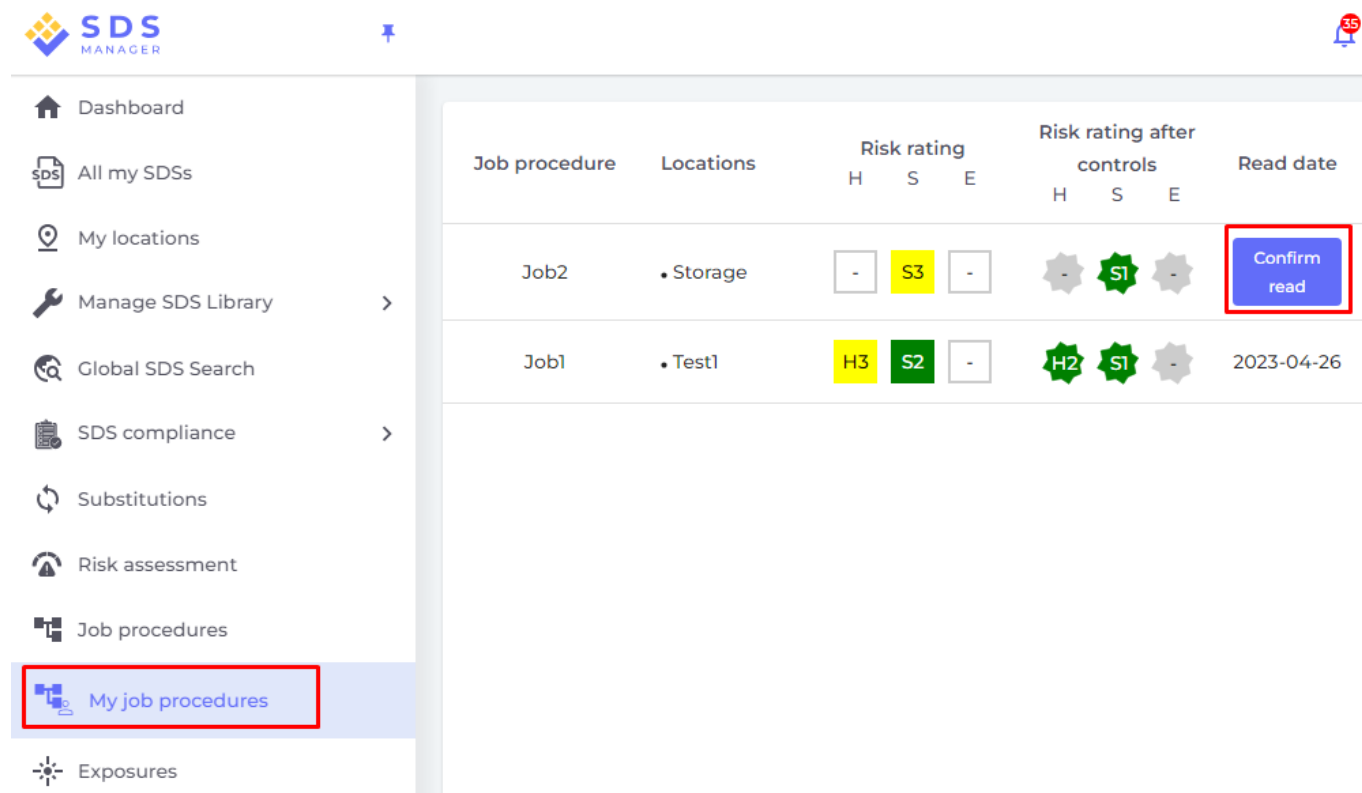

Why choose SDS Manager

Why choose SDS Manager

SDS Risk assessment and Job procedures

If you are using SDS Manager to create risk assessment and Job hazard analysis, employees can get easy access to required PPEs and QR codes to read detailed instructions.

When users are assigned to a job procedure, you can require them to register a read-receipt (Confirm read). The read-receipt will be the documentation that the users have read the procedures and are informed about PPE and controls.

The screenshot shows the SDS Manager interface. On the left is a sidebar with navigation options: Dashboard, All my SDSs, My locations, Manage SDS Library, Global SDS Search, SDS compliance, Substitutions, Risk assessment, Job procedures, My job procedures (highlighted with a red box), and Exposures. The main area displays a table with the following data:

Job procedure	Locations	Risk rating			Risk rating after controls			Read date
		H	S	E	H	S	E	
Job2	• Storage	-	S3	-	-	S1	-	Confirm read
Job1	• Test1	H3	S2	-	H2	S1	-	2023-04-26

Below are examples of a dummy **Chemical instruction & risk assessment** and a dummy **Job procedure** (COSHH compliant Job hazard analysis)

Why choose SDS Manager

Seeing is believing!

Please click on the below picture or scan the below QR code with your cell phone and see what your employees will see when they access your next SDS library.

Why choose SDS Manager

SDS Manager APP for iOS and Android for offline access to Safety Data Sheets.

The SDS Manager Mobile App provides offline access to your Safety Data Sheets (SDS)

We recommend that the primary method for employee access Safety Data Sheets is by scanning QR code posters

For users that need offline access or are accessing Safety Data Sheets by scanning product barcodes, the App is very efficient.

Upon installation, the app downloads all Safety Data Sheets directly to the device, enabling access both online and offline. Additionally, users can scan product barcodes by simply opening the app and pointing it at the barcode for instant SDS retrieval.

To install the app, scan the QR code poster and Click "Install app for offline access" . The app will then automatically provide access to the same SDS library available through the QR code poster.
