

Why choose SDS Manager

Getting started: Free version of SDS Manager

With [SDS Manager FREE](#), you can still effectively manage up to 200 Safety Data Sheets (SDS) and generate an SDS Binder file. The SDS Binder file includes an index with page numbers that are linked to the corresponding Safety Data Sheets, ensuring easy access and compliance with EHS regulations that require employees handling chemicals to have access to SDSs.

However, it's important to note that SDS Manager FREE comes with some limitations:

- Only one user can access and manage your online SDS library.
- Employees won't have the convenience of accessing Safety Data Sheets via QR codes; instead, they'll need to open the PDF file containing all your SDSs.
- You won't receive notifications when new revisions of SDSs in your library become available.

In this article, we will show you how to get started on using SDS Manager FREE to manage your library of Safety Data Sheets (SDSs) and give your employees access using the SDS Binder We will cover the following areas:

Step 1: Import your existing SDS files

Step 2: Add SDSs or Chemicals to your library by searching our database of 13Million+ Safety Data Sheets.

Step 3: Add your company logo to be shown on the SDS binder

Step 4: Generate the SDS Binders your employees use to access Safety Data Sheets

Step 5: Managing new revisions of Safety Data Sheets

Step 1: Import your existing SDS files

If you currently have your SDS files stored on a file-share, you can easily import all your SDSs to SDS Manager.

You can simply zip your folder with SDS-files and import them to SDS Manager.

When SDS Manager imports the SDS files, we will analyze them and extract all the content found in the SDS tiles and make them available for you in your new SDS library.

It is pure magic, and SDS Manager is the only company that have such an import feature.

Click here to [open SDS Manager to import your zip file \(require login\)](#)

Why choose SDS Manager

Search SDS in use and global database

Import your SDS files

The SDS Manager offers a distinctive feature that allows you to easily populate your online library with Safety Data Sheets by directly importing PDF files (electronic versions of Safety Data Sheets). This eliminates the need for manual typing.

If your SDS files are organized in a folder hierarchy, you can compress the entire folder structure into a ZIP file. We will then automatically establish a location structure that mirrors your folder arrangement, adding the SDS to each location in a manner consistent with how they are stored on your file server.

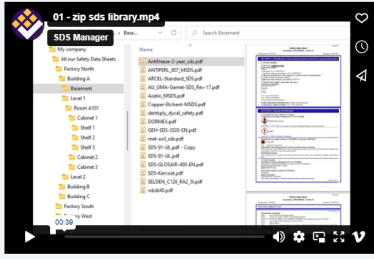

When SDS Manager imports the SDS files, we analyze and extract all the content found within the SDS files, making it accessible in your new SDS library.

Drop your PDF, ZIP or RAR files here

or

[Browse File](#)

In next step you will select the location you want to add the Safety Data Sheets to

File recently added

Location	File	Product Name	Error	Status
ISAVIA	Shell Rimula R6 LM 10W-40.pdf	Shell Rimula R6 LM 10W-40		Successfully Imported

To upload a single SDS file, you can drag and drop your file or browse in your system.

If you already have SDS-binders (PDF files that contain multiple SDS files) for each of your locations, you can simply upload the SDS-binder file to your SDS library.

We will automatically read the PDF you import and detect which SDSs are in the file and add them to the location.

Step 2: Add SDSs or Chemicals to your library by searching our database of 13Million+ Safety Data Sheets.

You can manage your SDSs under "Manage SDS Library"

Click here to [open SDS Manager to manage your SDS library \(require login\)](#).

Why choose SDS Manager

The screenshot displays the 'Manage SDS Library' interface. On the left is a sidebar with navigation options: Dashboard, All my SDSs, My locations, Manage SDS Library (highlighted), Benedict GmbH (9), ISAVIA (59), SDSes (98), WAYFINDER FAMILY S... (35), Add location, Import status, SDS requests, Archive, Global SDS Search, SDS compliance, Manage QR codes, Substitutions, and Risk assessment. The main area shows a table of SDS entries with columns: Product Name, Supplier Name, Location, Signal word, Amount, Pictograms & Controls, Substance hazard, and Actions. Three entries are visible: DAZZLE SHINE GLASS CLEANER, DUXOLA POWER GEL, and Ethylene Glycol (MOPAR CONCENTRATE ANTIFREEZE/COOLANT 10 YEAR/150,000 MILE - EMBITTERED). A red box highlights the '+ Add Safety Data Sheet' button at the bottom of the table.

Product Name ↑	Supplier Name	Location	Signal word	Amount	Pictograms & Controls	Substance hazard	Actions
DAZZLE SHINE GLASS CLEANER	National Purity US LLC	SDSes	Danger	N/A		H2 S2 E1	
DUXOLA POWER GEL	KREFTING & CO. AS	SDSes	Advarsel	N/A		H2 S1 E1	
Ethylene Glycol (MOPAR CONCENTRATE ANTIFREEZE/COOLANT 10 YEAR/150,000 MILE - EMBITTERED)	Not Available	SDSes	DANGER	N/A		H5 S1 E1	

To add a SDS for a product, simply search for the product name, then hover on the (+) icon and choose "Add Safety Data Sheet to YOURLOCATION".

Step 3: Add your company logo to be shown on the SDS binder

You add your company logo on the [Organization profile page](#) (require login)

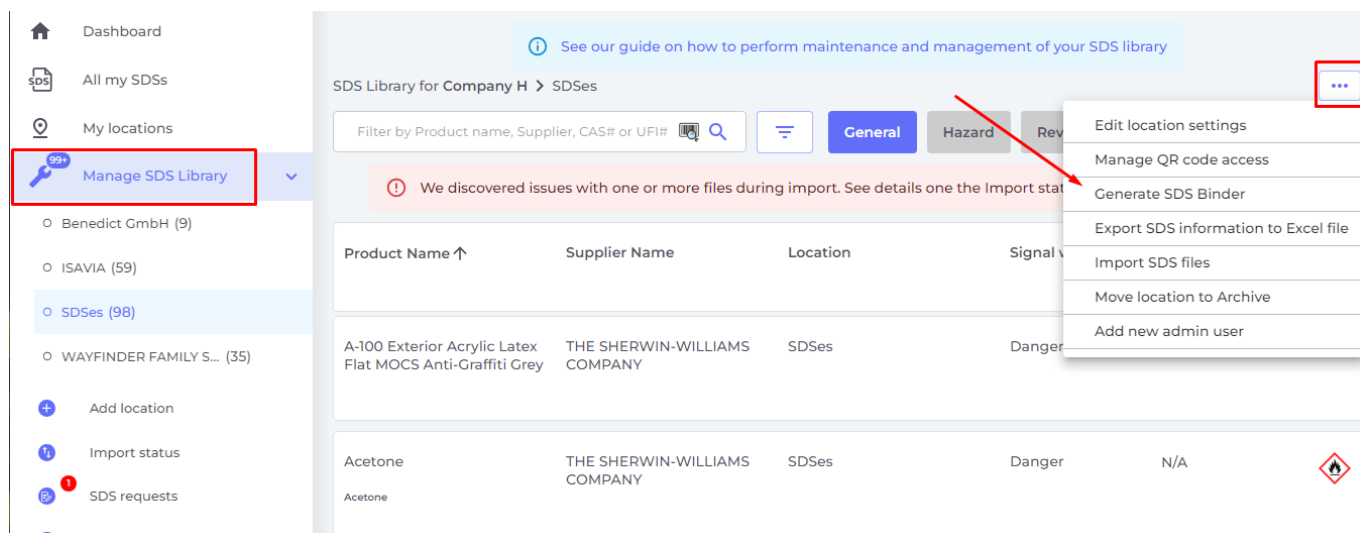

Why choose SDS Manager

Step 4: Print out SDS binders and share with your employees

With SDS Manager, you can create an SDS-Binder file that contains all Safety Data Sheets for a location by selecting "Generate SDS Binder" as shown on below image. If a location has sub-locations, you can create an SDS Binder file that contains all SDSs on a location including its sub-locations. Such a file is a convenient way to store a copy of your Safety Data Sheets to comply with the 10-year archive requirements.

The index of the SDS Binder file has page numbers that are linked to the page the corresponding Safety Data Sheet. Making the SDS Binder file available to your employees will help you comply with EHS regulations that require that employees that handle chemicals must have access to Safety Data Sheets.

From [Manage SDS Library menu](#) (require login) you can generate the SDS Binder file.

Below is an example of the index page of a MSDS-Binder created using SDS Manager.

The index of the SDS-Binder file lists all Safety Data Sheets in the binder file, including Signal Word and pictogram and PPE icons found in the SDS. To access a Safety Data Sheet, the user simply opens the SDS Binder PDF file in a PDF reader and clicks on the page number as shown on the below picture.

Why choose SDS Manager

The PDF reader will move to the page you clicked (82 in this example) where the Safety Data Sheet is found in the SDS-Binder file.

Why choose SDS Manager

Click the below link see example of an SDS Binder File

Step 5: Managing new revisions of Safety Data Sheets

The FREE version of SDS Manager will not notify you when there is an new revision of an SDS in your library. To get these notifications, you need a paid plan.

Why choose SDS Manager

When you get an updated version of an Safety Data Sheet you are using, you can upgrade to the new version using the "Replace with new SDS" function shown below.

Note for using the free version of SDS Manager:

Our [FREE version](#) is intended to be an efficient tool to help you manage your Safety Data Sheets and generate a digital SDS Binder file. The SDS Binder file should be made available for employees to comply with EHS regulations that require employees handling chemicals to have access to Safety Data Sheets.

Why choose SDS Manager

On our [FREE plan](#) you are not allowed to share online access to SDS Manager with your employees using our QR code or sharing login credentials.
