How to Create an Avery/Brady Label for an SDS PDF?

Here is how to create an Avery/Brady label for an SDS PDF:

Step 1: In **SDS Inventory Manager**, open the “**All My SDSs**” or “**Manage SDS Library**” page.

Step 2: Find the product for which you want to create a label with a QR code, then click on the 

icon next to the SDS to add it to the print list.

The screenshot shows the SDS Inventory Manager interface. At the top, there are tabs: General (highlighted in blue), Hazard, Revision, Risk, and Personalized view. Below the tabs, there are sections for Signal word, Pictograms & Controls, Substance hazard, and Actions. The Actions section includes icons for PDF, Print, Share, and others. A red arrow points to a button labeled "Add to print Avery/Brady label". Below this, there is another SDS entry with similar fields.

Step 3: After selecting all the SDSs you want to print, click on the same 

icon near the 

button to open the modified print page. Here, you can customize the print format for the selected SDSs.
