

SDS Inventory Manager in use

How can our employees find the SDS for a chemical?

If the SDS has already been added to your organization's SDS library, your employees can easily and quickly find the SDS in the search bar from the 'Dashboard.'

The screenshot shows the SDS Manager Dashboard. On the left is a navigation menu with items like 'All my SDSs', 'My locations', and 'Manage SDS Library'. The main content area has a 'Welcome to SDS Manager!' message and a section titled '5 ways to add Safety Data Sheets to your library'. A search bar is highlighted with a red box, containing the text 'Product, Supplier, CAS#, UFI#, EU No.'. Below the search bar are two cards: 'SDS I have access to' showing '5' and 'Locations I have access to' showing '2/2'. On the right, there is a 'Set up your SDS library' section with options like 'Add SDS files', 'Generate SDS Binder', and 'Print QR code for login'.

Or you can also find the search bar in 'All my SDSs' page:

The screenshot shows the 'All my SDSs' page. At the top, there is a header 'All my SDSs - where your employees find SDS for products they are using.' Below this is a search bar highlighted with a red box, containing the text 'Filter by Product name, Supplier, CAS# or UFI#'. Below the search bar is a table of SDS entries. The table has columns for 'Product Name', 'Supplier Name', 'Location', 'Signal word', 'Pictograms & Controls', 'Substance hazard', and 'Actions'. The table contains three rows of data:

Product Name	Supplier Name	Location	Signal word	Pictograms & Controls	Substance hazard	Actions
Acid Starch Indicator Powder Acid Starch Indicator Powder	Taylor Technologies, Inc	shuumatsu no valkyrie	Danger		H3 S1 E1	
ACRYLIC PU TOPCOAT NON YELLOWING TRANSPARENT,50 GLOSS	SAYERLACK, a brand of Sherwin-Williams	eren yeager	Danger		H5 S2 E5	
Barium Chloride Solution 20%	Taylor Technologies, Inc	shuumatsu no valkyrie	Warning		H4 S1 E5	

Alternatively, employees can scan QR codes on secondary container labels.

P411: Store at temperatures not exceeding ...°C/...°F.;

P501: Dispose of contents/container to ...

The labels have QR code for easy access to the SDS file (1) and to record arrival of new material, usage or disposal (2).

We recommend that you post QR codes to access your SDS library. This ensures that employees always have easy access to SDS and avoid problems with users that do not remember their password, etc.

Please scan the below QR code with your mobile phone to see what your employees will see when they access SDS library via QR code.

SDS Inventory Manager in use

Typically, our customers post QR code on the wall where employees use chemicals to ensure that employees know how to access the SDSs.

With SDS Manager, you can also have a link on your intranet to directly open the SDS library for easy access.
