

# SDS Inventory Manager in use

## What happens if I need more SDSs included in our subscription plan?

Each of our subscription plans allows you to store a specific number of SDSs in your library.

See our [Pricing plan](#) and decide which is most suitable for your organization. Then, go to the "Subscription" page to order your desired plan.

The screenshot shows the 'Billing Page' of the SDS Manager interface. At the top, it states: 'SDS Manager has subscription plans to meet a variety of budgets and needs. You can start with our free-plan to test our solution to see if it fits your needs.' Below this, there is a section titled 'Select how many Safety Data Sheets you need in your library' with a range of options from 100 to 4,000+. There are two tabs: 'Billed Monthly' and 'Billed Annually'. Three subscription plans are displayed: 'Basic' (US\$19/mo), 'Premium' (US\$39/mo), and 'Pro' (US\$59/mo). Each plan has a 'PURCHASE' button. A 'Your Current Plan' section shows 'Premium' with a pencil icon and a trial period until 2024-10-27. On the right, a user menu is open, with the 'Subscription' option highlighted in red.

Please also note that we offer free trial periods for our subscription plans.

In "Subscription" page, click on the pencil icon, and change to your desired subscription for the trial period.

The screenshot shows the 'Your Current Plan' section. It displays the 'Pro' plan with a pencil icon and a trial period until 2024-10-01.
