

# SDS Inventory Manager in use

## How can I create a link on our intranet to access our SDS library?

You can simply create a QR code user, scan the QR code, copy the link and add it to your intranet.

To create a QR-code-login, (1) open 'User management', (2) click on 'Add QR login user' and name the user, then (3) click 'Create'. We recommend you name the account to describe the locations which the QR code have access to. Next, (4) select the locations that you want the QR code to give access to, then (5) click 'Save'. Employees who log in via the QR code login will now have read-only access to the SDSs on selected locations.

# SDS Inventory Manager in use

**Manage QR codes**

User type: QR-codes User Status: Active

QR codes provides users of chemicals access to Safety Data Sheets by scanning QR codes with their mobile device or via link from your corporate intranet. Users that scan this QR code will get read-only access to your SDS library. Safety Data Sheets can be found by searching for parts of the product name and/or supplier name. You can create multiple "QR code users" – e.g., one for each of your locations, or a single "QR code user" that gives access to all the SDSs your organization has in the SDS library. Click the QR poster below to [print QR poster](#), [get URL to add to your corporate intranet](#) or [see a suggested go-live email](#) you can send to your organization.

Search for user

Name	Email address	Role	QR login	Preview	Status
Moi SDS của chúng tôi	QR login	Staff			Active
All Our SDS	QR login	Staff			Active
Moi SDS của chúng tôi	QR login	Staff			Active
User B	QR login	Staff			Active
User A	QR login	Staff			Active

**Add QR-login user**

Name: All Our SDS

Language: English

☐ Access to all SDSs ☒ Customize access

**CREATE**

**+ Add QR-login user** **+ Add user**

## Manage Location Access

Language: English Access setting: Customize access [Advanced access](#)

☐ Only access SDS with selected language

Define which Safety Data Sheets this QR code will give access to. You can create multiple QR codes if you have organized your Safety Data Sheets by locations.

Select user

**a** All Our SDS -

Benedict GmbH

**Expand location tree**

When the QR code user is created, you can view the QR code by clicking on the QR icon (1) and print the QR code poster (2).

Name	Email address	Role	QR login	Status
<b>A</b> Access to RE Department -		Staff	1	Active

Rows per page 10 1-1 of 1

You can scan the below QR code with your mobile phone to see how this will look for your employees.

# SDS Inventory Manager in use

Login QR Code

Please choose a print layout

Scan QR code to access SDS Library

All Our SDS -

SCAN TO ACCESS  
SAFETY DATA SHEETS

All Our SDS -  

SAFETY INFO

 Preview SDS library for this code

2  Print QR code for login

 Copy URL to clipboard

\*You can use the URL of the QR code to add a link to the SDS library on your Intranet.

Email access link to your team

Disable QR code login

The QR code is essentially a URL link that gives access to your SDS library.

To easily link your intranet to your SDS Library, simply click the 'Copy URL to clipboard' button. This will copy the necessary URL, which you can then use to create the link on your intranet.
