

Miscellaneous

Getting started: Multiple locations, without SDSs to import

In this article, we will show you how to get started on using SDS Manager to manage your library of Safety Data Sheets (SDSs). We will cover the following areas:

Step 1: Create location structure

Step 2: Add SDSs or Chemicals to your locations by searching our database of 13Million+ Safety Data Sheets.

Step 3: Create QR code poster to allow your employees to access the SDS library using QR code

Step 4: Look through SDSs that contains restricted chemicals and substitute where necessary **(Optional)**

Step 5: Create Secondary container labels for hazardous chemicals **(Optional)**

Step 6: Print out SDS binders if you prefer to have hard copies on the locations **(Optional)**

Step 7: Keep your SDS library up to date with new revisions

Step 1: Create location structure

For organizations with large number of SDSs, it can be helpful to organize the SDSs by locations/departments.

With a location structure, you can delegate administrator access for a subset of locations to other team members. It also allows you to let your employees only have access to SDSs relevant for the site in which they are working.

You can create a location structure with unlimited number of levels.

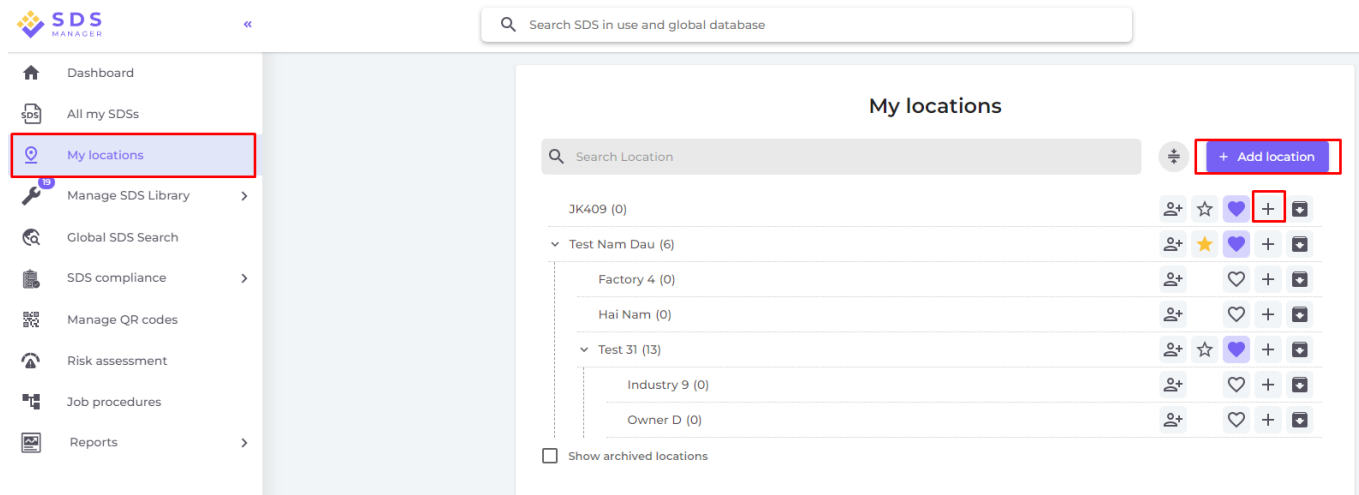

With SDS Manager, you can link your SDSs to locations.

Below is an example of a location hierarchy. The number in the parentheses is the number of SDSs linked to each location.

You can manage your location structure under the menu "My locations". Use the button "Add location" to create new locations and the "+" button to create child-locations.

Click here to [open SDS Manager to manage your locations \(require login\)](#).

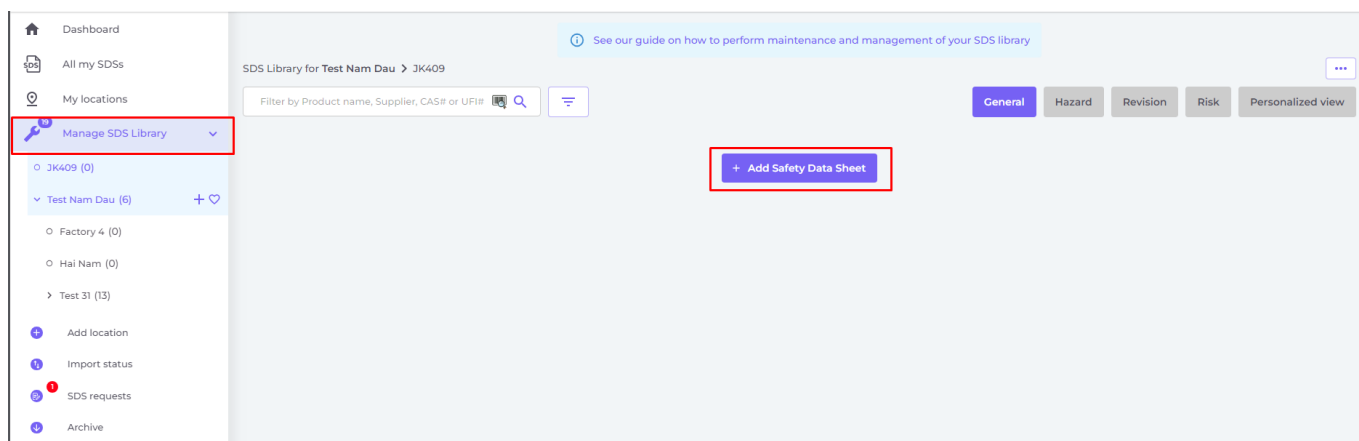

Miscellaneous

Step 2: Add SDSs or Chemicals to your locations by searching our database of 13Million+ Safety Data Sheets.

You can manage your SDSs under "Manage SDS Library"

Click here to [open SDS Manager to manage your SDS library \(require login\)](#)

To add a SDS for a product, simply search for the product name, then hover on the (+) icon and choose "Add Safety Data Sheet to YOUR LOCATION".

Miscellaneous

Add substance to JK409

Search for Safety Data Sheet in our database of 13Million+ Safety Data Sheets.

Zink-Alu Spray  

Language: All Region: All Minimum Revision Year: 2023 ☐ Search only among SDS in use by Test Nam Dau

Exact match search results:

Name	Product code	Supplier	Revision date	Regulation area	Language	Actions
 Zink-Alu Sprav		LIQUI MOLY GmbH	2023-11-02	EU	German	   
<div>Add Zink-Alu Spray to JK409</div>						
<div>Add to other locations</div>						
		MIPA SE	2023-03-03	EU	English	    

If you want to add the same SDS to multiple locations in one operation, select "Add Safety Data Sheet to other locations" instead.

Miscellaneous

Add substance to JK409

Search for Safety Data Sheet in our database of 13Million+ Safety Data Sheets.

Zink-Alu Spray

Language: All, Region: All, Minimum Revision Year: 2023

☐ Search only among SDS in use by Test Nam Dau

Exact match search results:

Name	Product code	Supplier	Revision date	Regulation area	Language	Actions
Zink-Alu Spray		LIQUI MOLY GmbH	2023-11-02	EU	German	[Icons]
Mipa Zink-Alu-Spray		MIPA SE	2023-03-03	EU	English	[Icons]

Add Mipa Zink-Alu-Spray to JK409

Add to other locations

1. Click the Search button to rerun your search on Google

Not finding what you are looking for?

Add substance to locations

Search Location

- ☐ JK409
- ☒ Test Nam Dau
 - ☒ Factory 4
 - ☒ Nam
 - ☒ Test 31

3 selected locations

Add

Step 3: Create QR code poster to allow your employees to access the SDS library using QR code

Employees can get read-only access to some SDSs via QR-codes.

If you have multiple locations, you may want to create a separate QR code for each location so that employees only see the SDSs in their location when scanning the QR code.

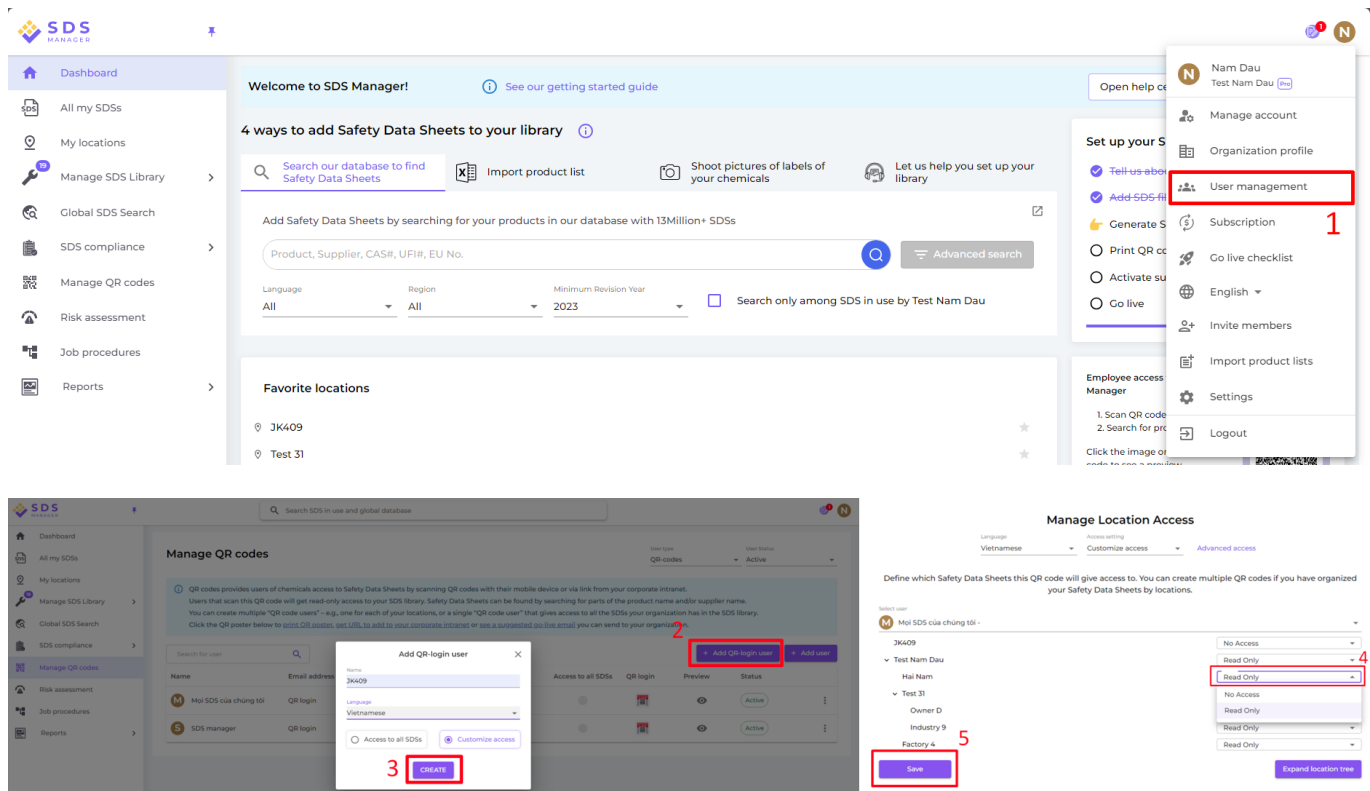

Miscellaneous

To create a QR-code-login do the following steps:

(1) Click here to [open SDS Manager User management page \(require login\)](#)

(2) click on 'Add QR login user' and name the user, then (3) click 'Create'. We recommend you name the account to describe the locations which the QR code have access to. Next, (4) select the locations that you want the QR code to give access to, then (5) click 'Save'. Employees who log in via the QR code login will now have read-only access to the SDSs on selected locations.

Miscellaneous

When the QR code user is created, you can view the QR code by (1) clicking on the QR code image.

Name	Email address	Role	Language	Access to all SDSs	QR login	Preview	Status
JK409	QR login	Staff	Vietnamese	●	1 		Active

The button (1) "Preview SDS library for this code" will show you how many SDS this location had

The button (2) "Print QR code for login" will generate a poster with the QR code.

If you want to give access to your SDS library from your intranet, you can simply (3) create a QR code user, scan the QR code and copy the link and add it to your intranet.

The button (4) "Email access link to your team" allow you to share access via email.

You can disable the QR code by clicking the button (5) "Disable QR code login". Choosing that button again to enable it.

You can or click on the image or scan the below QR code with your mobile phone to see how this will look for your employees.

Miscellaneous

Login QR Code

Please choose a print layout

SDS
MANAGER

Scan QR code to access SDS Library

JK409 -

SCAN TO ACCESS
SAFETY DATA SHEETS

JK409 -

SDS
MANAGER

SAFETY INFO

1 Preview SDS library for this code

2 Print QR code for login

3 Copy URL to clipboard

*You can use the URL of the QR code to add a link to the SDS library on your Intranet.

4 Email access link to your team

5 Disable QR code login

If you want the link to give access to all SDS in your organization, the QR code user must be granted access to all locations.

You can create many “QR code users” – e.g., one for each of your locations, or a “QR code user” that gives access to all the SDSs your organization has in the SDS library.

Step 4: Look through SDSs that contains restricted chemicals and substitute where necessary (Optional)

SDS Manager has an overview of all chemicals listed on restriction lists like ZDHC, California Proposition 65, REACH and more.

The substances in these lists are identified with either EC or CAS number.

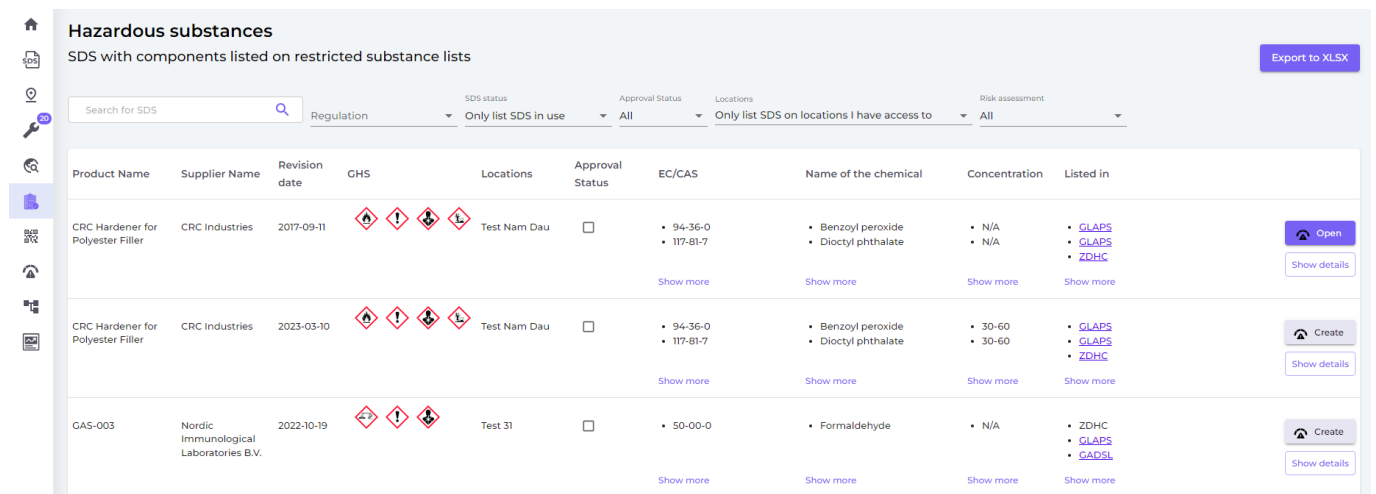

SDS Manager will extract the CAS and EC numbers from section 3 of the SDS you use and check if these numbers are found in any of the restriction list.

Miscellaneous

In SDS Manager, you will be able to list all the SDSs you have in your SDS Library that have restricted components.

Click here to [open SDS Manager see what SDS in your library that are containing hazardous chemicals \(require login\)](#)

Below is an example of how we list products with components on restricted list:

Product Name	Supplier Name	Revision date	GHS	Locations	Approval Status	EC/CAS	Name of the chemical	Concentration	Listed in
CRC Hardener for Polyester Filler	CRC Industries	2017-09-11		Test Nam Dau	<input type="checkbox"/>	<ul style="list-style-type: none">94-36-0117-81-7	<ul style="list-style-type: none">Benzoyl peroxideDiocetyl phthalate	<ul style="list-style-type: none">N/AN/A	<ul style="list-style-type: none">GLAPSGLAPSZDHC
CRC Hardener for Polyester Filler	CRC Industries	2023-03-10		Test Nam Dau	<input type="checkbox"/>	<ul style="list-style-type: none">94-36-0117-81-7	<ul style="list-style-type: none">Benzoyl peroxideDiocetyl phthalate	<ul style="list-style-type: none">30-6030-60	<ul style="list-style-type: none">GLAPSGLAPSZDHC
GAS-003	Nordic Immunological Laboratories B.V.	2022-10-19		Test 31	<input type="checkbox"/>	<ul style="list-style-type: none">50-00-0	<ul style="list-style-type: none">Formaldehyde	<ul style="list-style-type: none">N/A	<ul style="list-style-type: none">ZDHCGLAPSGADSL

The above list is a prospective list of products that you need to assess.

When you have verified that the content is acceptable, you may want to mark the SDS as 'Approve'

Track Usage

Hazard Statements

H242: Heating may cause a fire;

H317: May cause an allergic skin reaction;

H319: Causes serious eye irritation;

H360: May damage fertility or the unborn child (state specific effect if known)(state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard);

H373: May cause damage to organs (state all organs affected, if known) through prolonged or repeated exposure (state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard);

H410: Very toxic to aquatic life with long lasting effects

Precautionary Statements

P201: Obtain special instructions before use.;

P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.;

P234: Keep only in original packaging.;

P235: Keep cool.;

P302+P352: IF ON SKIN: Wash with plenty of water/...;

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.;

P308+P313: IF exposed or concerned: Get medical advice/ attention.;

P370+P378: In case of fire: Use ... to extinguish.;

P403: Store in a well-ventilated place.;

P405: Store locked up.;

P410: Protect from sunlight.;

P411: Store at temperatures not exceeding ...°C/...°F.;

P501: Dispose of contents/container to ...

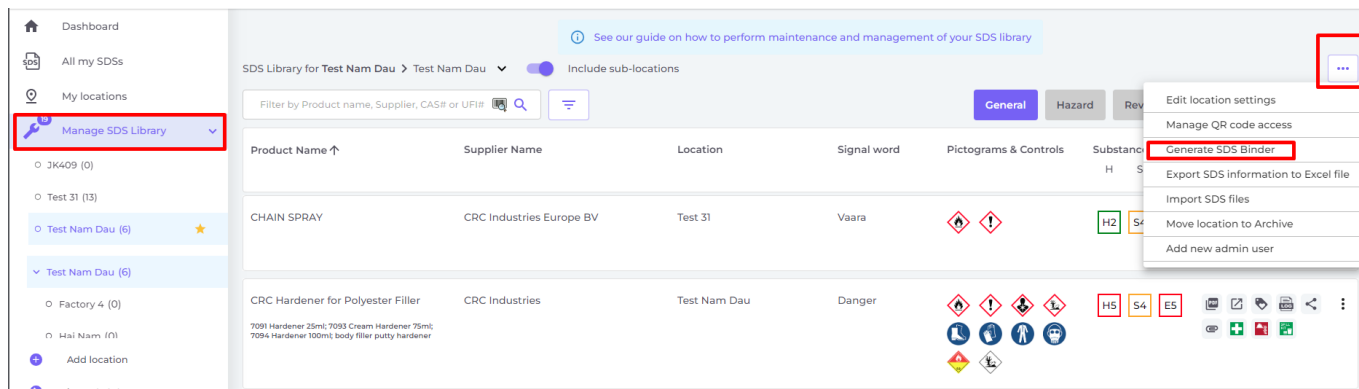

Step 6: Print out SDS binders if you prefer to have hard copies on the locations (Optional)

For each location in your SDS library, you can find a 'Print binder' button, which will generate a PDF file that contains all the SDSs stored on that location. On the first page of the SDS Binder, there will be a table of content of all the SDS in the binder.

Click here to [open SDS Manager to generate SDS binders \(require login\)](#)

Miscellaneous

The PDF file can be printed out if you need hard copies.

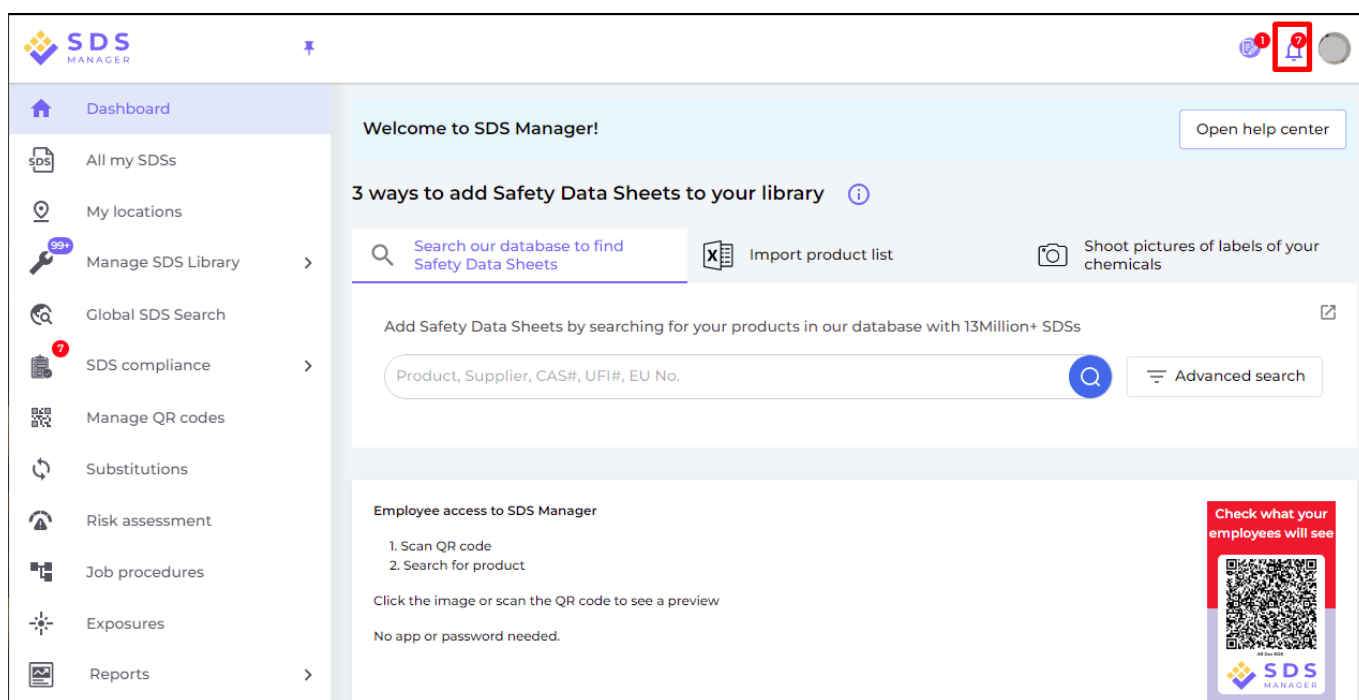

Step 7: Keep your SDS library up to date with new revisions

New revisions of SDSs are issued every 1 to 3 years.

New revisions are issued because of new regulatory requirements, corrections or new discoveries by the suppliers. Users of chemicals are required to have the latest version of the SDS in their library.

SDS Manager are continuously crawling thousands of supplier websites for new revisions of safety data sheets and add them to our database.

When you use SDS manager, you will be alerted when we find new versions of SDSs in your library. In the header bar of SDS Manager, you will see the alert icon showing the number of outdated SDSs you have in your library. In the example below, we have 7 outdated SDSs that need to be updated.

When you click on the notification bell, you will be directed to ["SDS where newer version exists" page](#) where we will list SDSs you have in your library for which we found newer versions.

Click here to [open SDS Manager to review SDS where newer version exists \(require login\)](#)

Miscellaneous

Product Name	Product Code	Revision date	Revision date newer version	Locations	
all Free Clear Liquid Laundry Detergent		2022-02-01	→ 2023-02-16	WAYFINDER FAMILY SERVICES	Upgrade to new version
Ethylene Glycol MOPAR CONCENTRATE ANTIFREEZE/COOLANT 10 YEAR/50000 MILE-...		2019-01-15	2019-01-15	SDSes	Upgrade to new version

Click on the "Upgrade to new version" button to see side-by-side changes between the SDS you are currently using and the new version.

The screenshot displays a comparison of two versions of an SDS. The top section shows the product name 'all Free Clear Liquid Laundry Detergent' and the company 'Henkel Corporation'. Below this, there are two buttons: 'Upgrade to new version' and 'Dismiss upgrade notification'. The main part of the interface is a table with three columns: 'Changed values', 'Current version', and 'Newer Version'. The table lists various SDS parameters such as Version no., Iso icon, Date of issue, Health risk, Environment risk, Hazard pictograms, and Hazard statements, comparing the current version (001.0) with the newer version (2023-02-16). A red arrow points to the 'Upgrade to new version' button in the top right corner of the comparison window.

You can choose to upgrade one SDS at a time (1) or upgrade all SDSs to the latest version in one operation (2).

This screenshot is similar to the previous one, showing the same SDS comparison window. However, it highlights the 'Upgrade to new version' button in the top right corner of the comparison window with a red box and a red arrow. Additionally, a red arrow points to the 'Upgrade to new version' button in the top right corner of the main interface, which is also highlighted with a red box. A red arrow also points to the 'Upgrade to new version' button in the top right corner of the comparison window, which is highlighted with a red box.
