

# User management and access control

## How can I create a link on our intranet to access our SDS library?

You can simply create a QR code user, scan the QR code, copy the link and add it to your intranet.

To create a QR-code-login, (1) open 'User management', (2) click on 'Add QR login user' and name the user, then (3) click 'Create'. We recommend you name the account to describe the locations which the QR code have access to. Next, (4) select the locations that you want the QR code to give access to, then (5) click 'Save'. Employees who log in via the QR code login will now have read-only access to the SDSs on selected locations.

# User management and access controll

**Manage QR codes**

QR codes provides users of chemicals access to Safety Data Sheets by scanning QR codes with their mobile device or via link from your corporate intranet. Users that scan this QR code will get read-only access to your SDS library. Safety Data Sheets can be found by searching for parts of the product name and/or supplier name. You can create multiple "QR code users" – e.g., one for each of your locations, or a single "QR code user" that gives access to all the SDSs your organization has in the SDS library. Click the QR poster below to [print QR poster](#), [get URL to add to your corporate intranet](#) or [see a suggested go-live email](#) you can send to your organization.

Search for user

**Add QR-login user**

Name: All Our SDS

Language: English

Access to all SDSs  Customize access

**CREATE**

Name	Email address	Role	Access to all SDSs	QR login	Preview	Status
Moi SDS của chúng tôi	QR login	Staff	<input type="checkbox"/>	<input checked="" type="checkbox"/>		Active
All Our SDS	QR login	Staff	<input type="checkbox"/>	<input checked="" type="checkbox"/>		Active
Moi SDS của chúng tôi	QR login	Staff	<input type="checkbox"/>	<input checked="" type="checkbox"/>		Active
User B	QR login	Staff	<input type="checkbox"/>	<input checked="" type="checkbox"/>		Active
User A	QR login	Staff	<input type="checkbox"/>	<input checked="" type="checkbox"/>		Active

## Manage Location Access

Language: English | Access setting: Customize access | [Advanced access](#)

Only access SDS with selected language

Define which Safety Data Sheets this QR code will give access to. You can create multiple QR codes if you have organized your Safety Data Sheets by locations.

Select user

All Our SDS -

Benedict GmbH

ISAVIA

SDSes

WAYFINDER FAMILY SERVICES

**Save**

**Read Only**

No Access

Read Only

**Expand location tree**

When the QR code user is created, you can view the QR code by clicking on the QR icon (1) and print the QR code poster (2).

You can scan the below QR code with your mobile phone to see how this will look for your employees.

# User management and access control

Login QR Code  
Please choose a print layout

Scan QR code to access SDS Library

All Our SDS -

**SCAN TO ACCESS  
SAFETY DATA SHEETS**

All Our SDS -  

**SAFETY INFO**

2 [Preview SDS library for this code](#)

[Print QR code for login](#)

[Copy URL to clipboard](#)

\*You can use the URL of the QR code to add a link to the SDS library on your Intranet.

[Email access link to your team](#)

[Disable QR code login](#)

The QR code is essentially a URL link that gives access to your SDS library.

To easily link your intranet to your SDS Library, simply click the 'Copy URL to clipboard' button. This will copy the necessary URL, which you can then use to create the link on your intranet.
