Daily use

How can I inform our employees about required PPE and controls?

Open "All my SDSs" or "Manage SDS Library" page and find the substance.

Click on the "More Actions" icon from the "Actions" column and choose "Create risk evaluation".

Daily use

When your Risk evaluation is completed and approved, your employees can see them from the
'PPE/Controls' column in the 'Hazard' tab view.
To inform your employees about how to handle substance(s) when carrying out a task, create a job procedure with the substance(s), then add your employees to the job procedure.
Once it is approved, your employees will be notified by email and asked to "Confirm read" from thei "My job procedures" page.
