

Daily use

How can I compare the content of the SDS of two chemicals?

SDS Manager allow you to compare two Safety Data Sheets side-by-side.

On our [All Our SDS](#) page (require login), you can select two SDS and select "Show differences between two SDS" from Bulk Action.

SDS Manager will show you a side-by-side view of the two SDSs.

Below are some screenshots that show the different views of two Methanol products:
