How to administer notifications from SDS Manager.

On your [SDS Manager account](#), you can activate the following email notifications

- New SDS Request
- Message from SDS Manager
- Message from vendor
- New revision of an SDS
- SDS has automatically been upgraded to new version

The screenshot displays the SDS Manager interface. On the left is a navigation sidebar with icons for Home, SDS, Location, Keys (99+), Search, Alerts (10), QR code, Refresh, Security, Reports, and Analytics. The main content area shows three expandable sections: 'General Information', 'Security', and 'Email notifications'. The 'Email notifications' section is expanded and highlighted with a red border, showing the following settings:

| Notification Type | Status |
|--|--------|
| New SDS Request | On |
| Message from SDS Manager | On |
| Message from vendor | On |
| New revision of an SDS | On |
| SDS has automatically been upgraded to new version | On |

A 'Save settings' button is located at the bottom of the 'Email notifications' panel. On the right side, the user profile menu is also highlighted with a red border, showing the user 'Erlend Bruvik' from 'Test Corporation Inc.' with a 'Pro' badge. The menu items are: Manage account, Organization profile, User management, Subscription, Go live checklist, Impersonate, English, Invite members, Import product lists, Settings, and Logout.
