

Daily use

Add information labels on SDSs - shown in the SDS list and on labels

Information labels are added from the SDS Detail view

3 message types are available: Info, Warning, and Danger Type

The message will be shown to employees when they search for the SDS

Daily use

The message will also be shown on Secondary Container labels.

You can also add the additional information from the print label dialog.

Print Single SDS Label ✕

Print format: A6 (4"x6")

Add PPE icons: NFPA: HMIS:

Hazard statements: Use standard statement description From Pdf

[Edit information message](#)

The screenshot shows a software interface for printing an SDS label. At the top, there are controls for 'Print format' (set to A6 (4"x6")), 'Add PPE icons', and hazard statement options (NFPA and HMIS are checked). A red box highlights the 'Edit information message' link. Below this is a preview of the label, with a red arrow pointing to a specific section. The detailed view shows the label header 'AATREX LIQUID 480' with a QR code and 'View PDF' link. The main body contains a light blue box with a circled 'i' icon and a paragraph of placeholder text. Below this are hazard statements (H373), precautionary statements (P260; P314; P501), a diamond-shaped hazard pictogram with 'ALK' and numbers 3 and 4, and a table of hazard categories: HEALTH (3), FLAMMABILITY (3), PHYSICAL HAZARD (4), and PERSONAL PROTECTION (1).
