Add SDS to our library

I have received a PDF file from our supplier that I want to add to our library

To add an SDS file you received from your supplier:

1. Open the location in **Manage SDS Library**.
2. Click **Add Safety Data Sheet** below the list.
3. Under **Already have the PDF-file of the Safety Data Sheet you want to add to your library?** drag the file into the box, or click **Browse File**.

SDS Manager reads all the information in the PDF and adds the SDS to your library. You can upload up to 20 files at a time by selecting several files in the file dialog. If we already have a more recent version of the SDS in our database, SDS Manager offers to **Move to newer version**.

Is the new file a new revision of an SDS you already have? Read My supplier sent me a new updated Safety Data Sheet. Many files at once: How do I import our current file-based SDS library?

Unique solution ID: #1151
