

Subscription and payment

What happens if I need more SDSs included in our subscription plan?

Each of our subscription plans allows you to store a specific number of SDSs in your library.

See our [Pricing plan](#) and decide which is most suitable for your organization. Then, go to the "Subscription" page to order your desired plan.

The screenshot displays the 'Billing Page' of the SDS Manager. At the top, it states: 'SDS Manager has subscription plans to meet a variety of budgets and needs. You can start with our free-plan to test our solution to see if it fits your needs.' Below this, a slider allows users to 'Select how many Safety Data Sheets you need in your library' with options from 100 to 4,000+. There are two tabs: 'Billed Monthly' (selected) and 'Billed Annually'. Three subscription plans are presented: 'Basic' (US\$19/mo), 'Premium' (US\$39/mo), and 'Pro' (US\$59/mo). Each plan lists its features and has a 'PURCHASE' button. A 'Your Current Plan' sidebar on the right shows the 'Premium' plan with a trial period until 2024-10-27. A user menu on the far right includes options like 'Manage account', 'Organization profile', 'User management', 'Subscription' (highlighted with a red box), 'Go live checklist', 'English', 'Invite members', 'Import product lists', 'Settings', and 'Logout'. A link at the bottom says 'See a detailed comparison of the plans'.

Please also note that we offer free trial periods for our subscription plans.

In "Subscription" page, click on the pencil icon, and change to your desired subscription for the trial period.

This screenshot shows the 'Your Current Plan' section. It features the 'Pro' plan with a pencil icon next to it. Below the plan name, it states 'Trial period until 2024-10-01'.
