

Add SDS to our new library

SDS Requests - What do I do if an SDS I need is not in the SDS Manager's database?

Even though we have more than 13 million SDS in our database, we will miss some.

This is how we handle that case where you cannot find the SDS you are looking for in our database.

From our SDS search window click 'Search for "SDS" on Google'.

This will often give you the desired result. You can then download the pdf you found and upload the file using our "Upload PDF file" feature.

Add SDS to our new library

If you do not find the SDS when searching the internet, you should email your supplier and ask them to email you the SDS. They are required by law to supply their customers with updated SDSs.

To keep track of the products where you have not yet received the SDS, we recommend that you save the product information by manually enter the product info and contact the distributor from which you get the product for the SDS file, you may find the next part of the instruction in [This article.](#)
