

Add SDS to our new library

How can I add chemicals to SDS Manager without an SDS?

You can manually enter the product/chemical information without a SDS.

Open 'Manage SDS Library' and choose a location for this new product.

Then, click 'Add Safety Data Sheet' and select 'Show other methods to add Safety Data Sheets to location.'

Already have the PDF-file of the Safety Data Sheet you want to add to your library? [?](#)
You can also add the Safety Data Sheet to your library by simply uploading the PDF-file.

Drag and drop [Browse File](#)

Show other methods to add Safety Data Sheets to location ^

- [UPLOAD FROM URL](#) I know the URL where the Safety Data Sheet can be downloaded from the internet.
- [MANUALLY ENTER PRODUCT](#) I cannot find any Safety Data Sheet file for my product. Until I get the Safety Data Sheet file, I want to store all the product information I know. The Safety Data Sheet file can be added later.
- [IMPORT SDS-BINDER](#) I have a PDF-SDS Binder with all Safety Data Sheets I want to import to this location.
- [IMPORT ZIP-FILE](#) I have all Safety data sheet files for this location in a folder on my PC. I have compressed the folder to a zip file and want to import them to this location.

Select 'Manually enter product', fill out your product information, then click 'Save'.

SDS Request status

New

This approach is employed to provide details about a product for which you currently do not have the SDS file. Please reach out to your supplier to obtain the SDS.

Once you receive the PDF file from your supplier, go to our page for [SDS Requests](#) and upload the received SDS file.

You can later find a SDS for your product from '[SDS Requests](#)' ([require login](#)) page.

After the product information is saved, you can email the supplier of the product for the SDS PDF file, they will be willing to send you the SDS file.

When you have already obtained the SDS file, in 'Manage SDS library' menu, select 'SDS request' then click 'Find SDS' for the product.

Add SDS to our new library

The screenshot shows the 'SDS requests' interface. On the left, a sidebar contains navigation options: Dashboard, All my SDSs, My locations, Manage SDS Library (selected), Add location, Import status, SDS requests (highlighted with a red box), Archive, Global SDS Search, and SDS compliance. The main area displays a table of SDS requests with columns: Product Name, Place of purchase, Manufacturer Name, Product Code, Locations, Purchase year, Type, SDS Request status, Due Date, Comment, Created date, and Created By. A single row is visible with 'Hello' as the product name and 'Olieh' as the place of purchase. The 'Find SDS' button is highlighted with a red box, and a tooltip for it says 'Request assistance from the SDS Manager team'. At the bottom of the table, there are pagination controls: 'Rows per page 10', '1-1 of 1', and navigation arrows.

The below dialog appears after you click "Find SDS" - here you can upload the file you have.

If you have a large number of products you need to import, SDS Manager are more than willing to offer assistance in setting up your library of SDSs.
