## How to Create an Avery/Brady Label for an SDS PDF?

Here is how to create an Avery/Brady label for an SDS PDF:

**Step 1:** In **SDS Inventory Manager**, open the **“All My SDSs”** or **“Manage SDS Library”** page.

**Step 2:** Find the product for which you want to create a label with a QR code, then click on the

icon next to the SDS to add it to the print list.

The screenshot shows the 'General' tab of the SDS Inventory Manager. The interface includes tabs for 'General', 'Hazard', 'Revision', 'Risk', and 'Personalized view'. Below these are columns for 'Signal word', 'Pictograms & Controls', 'Substance hazard' (with H, S, E sub-columns), and 'Actions'. Two SDS entries are visible. The first entry has a 'Signal word' of 'Danger', four pictograms (flame, exclamation mark, biohazard, and a flame over a circle), and hazard codes H2, S3, and E1. The 'Actions' column for this entry contains icons for PDF, print, download, a printer icon (highlighted with a red arrow and a tooltip 'Add to print Avery/Brady label'), and a LOG icon. The second entry also has a 'Signal word' of 'Danger' and two pictograms (flame and exclamation mark), with hazard codes H2, S3, and E1. The 'Actions' column for the second entry contains icons for PDF, print, download, a printer icon, a LOG icon, and a share icon.

**Step 3:** After selecting all the SDSs you want to print, click on the same

icon near the

button to open the modified print page. Here, you can customize the print format for the selected SDSs.
