Hi Erlend Bruvik,

You have been added to Job procedure Priming epoxy floor.

Please visit [SdsManager - Inventory Management](#), read the job procedure thoroughly, and press the "Confirmed read" button on the Job procedure once you have read it.

Kind regards,

Job hazard analysis report

Job procedure title	3D printer cleaning and refill refrigerated Argon
Frequency of job procedure	Monthly
Locations	Demo site Eng
Persons at risk	User of the substance
Substance form	Liquid
Last revised	2022-12-14
Description of procedure	Monthly cleaning of 3D printer and refill Argon.
Description of Job steps	The first thing you should do is remove the vat from the 3D printer and then drain the leftover resin into the plastic bottles you have. Use the funnel and filter to make this process easier. You can reuse the resin after you have finished cleaning the vat.
Description of Hazards	Refrigerated Argon is very dangerous to get on the skin. Fumes from the Resin must not be inhaled.
Description of Controls	Use described PPE

Confirm I have read the job procedure

Risk categories	Without controls	With controls
